

I sensed a circular area
 & I sensed movement. I sensed
 a structure, either man-made or
 natural. I think it was a
 natural structure used by man.
 I felt that at times I was
 underneath & I felt dirt.
 I sensed men moving about -
 walking, observing, overseeing.

I sensed men inside. I sensed
 two important areas. The first -
 I sensed lighting coming from
 the floors. I sensed men being
 looked at. After they were looked
 at, they left. I sensed a
 second darker area. This area
 was deeper down under. It was
 dark. ~~new~~ A few men met here.
 Plans were simple. I sensed
 simplicity - rough walls. No hangings,
 no papers, no maps. Nothing. Men
 met, and made fast decisions.
 I sensed that a small group
 of men made up a force. This
 force not well known even to the
 larger force and I sensed
 internal damage. I sensed
 a strike fast.

I then sensed an object
 that was rotating and
 moving backwards. I sensed
 rising backwards. The object
 fired and then the firing
 vanished. This object could
 not hit high altitudes but
 could hit fast. It was
 moving backwards.

Future - This object looked better

gap bigger & I could see
 the object and leaving.
 They were walking and
 leaving the area. Now, the
 object was working
 correctly and it was
 still not hitting high
 altitude but it
 could reach out at longer
 distances.

I then sensed I
 was on a vehicle which
 reminded me of a
 train. I could see
 compartments & I could
 see a pouch or pocket
 that had something to
 do with a future event.

I sensed a change
 in the future and
 a man being elevated,
